PROFESSIONAL SUMMARY

Networking and infrastructure-focused professional with hands-on experience designing and managing segmented homelab environments using firewall rules, NAT, VLAN segmentation, and secure VPN tunnels. Experienced supporting Linux-based servers and core network services such as DNS and monitoring. Strong troubleshooting mindset with a structured root-cause analysis approach and well-documented technical workflows.

TECHNICAL SKILLS

Networking:

IP addressing, subnetting fundamentals, ports & protocols, DNS resolution, NAT, VLAN segmentation, firewall rule configuration, WireGuard VPN tunneling

Systems:

Windows troubleshooting (accounts, drivers, permissions, Event Viewer), Linux CLI fundamentals, macOS VM testing and virtualization

Infrastructure:

OPNsense firewall deployment, Raspberry Pi server configuration, VirtualBox VM environments, local DNS routing (Pi-hole), basic service monitoring

Tools:

VPN, Github, Linux, Windows, Mac OS, Termux, Supabase, SSH

Hardware:

Custom PC assembly and component installation (CPU, RAM, storage), SSD/HDD diagnostics, system backups, peripheral configuration, driver troubleshooting

HANDS-ON TECHNICAL PROJECTS

- **Homelab Infrastructure (OPNsense):** Designed segmented network with VLAN isolation, NAT, firewall rules, and secure WireGuard VPN access.
- **Raspberry Pi 4 Production Server:** Deployed Linux-based web server hosting portfolio; configured local DNS resolution and service monitoring.
- **Custom Gaming PC Build:** Assembled and configured a custom gaming workstation including hardware selection, system installation, and performance optimization.
- **Hardware Signal Experimentation:** Built custom setups using RCA, HDMI adapters, and VGA cables to manipulate video signals through circuit-bending and hardware modification techniques.

PROFESSIONAL EXPERIENCE

2nd Family Dogs – Shift Lead (2021–Present)

- Led teams in high-pressure environments and emergency scenarios.
- Maintained accurate documentation and incident reporting.
- Resolved operational issues using structured troubleshooting methods.

Tandem Bagel – Prep Cook (2019–2022)

- Followed structured workflows and maintained operational accuracy.

EDUCATION & CERTIFICATIONS

Bachelor of Arts – Visual Arts, Marlboro College

Google IT Support Professional Certificate – Coursera

Certifications In Progress: Cisco CCNA, CompTIA Security+, CompTIA Linux+
